

## MUST CUT ESTIMATES FOR GOVERNMENT EXPENSES ONE BILLION

### Warns Republican Leader Mondell in a Speech to the House, Economy Must be the Watchword

#### Estimate Totalled Nearly Five Billion--Less Than Four Billion Must be Allowed

(By United Press)  
Washington, Dec. 18.—A billion dollar cut must be made in the government expenditures this year, Republican Leader Mondell warned today in a speech to congress.  
Estimates for the fiscal year ending June 30, 1920, totalled nearly \$5,000,000,000 according to figures recently submitted.  
These must be slashed to less than \$4,000,000,000, Mondell declared.  
"Economy must be the watchword of the present session," he emphasized. "In no other way can we perform our duty to our country when there is a widespread demand for a reduction in taxes, when bond issues are invoked and estimates are in excess of probable revenue." At present economy of the severest type should be practiced, if we hope to place fiscal operations on a solid basis and avoid dangerous financial situations."

## U. S. Will Let Jenkins Incident Quietly Die

### President Sets Aside Lansing's Position of Making Mexico Respect American Rights

(By United Press)  
Washington, Dec. 18.—The Mexican reply to the last American note requesting the release of American Consul Agent Jenkins has been received at the state department it was announced today. Secretary Lansing is expected to study immediately the text of the note and attitude to be assumed by this government toward Mexico. The reply is to be disclosed soon it was learned.

Despite Mexico's reported uncompromising attitude in refusing to dismiss charges against Jenkins, it was evident here the state department intends to let the diplomatic correspondence in his case die a quiet death.

This was due entirely to President Wilson taking a strong hand in the matter and toning down the belligerent attitude this government assumed while Secretary Lansing was managing negotiations for release of Jenkins.

Secretary Lansing's last demand for the American's freedom was considered one of the most sarcastic and unequalled messages ever sent by this government to any country. At the time it was sent the president was not even consulted. Mexico's aim was to obtain Jenkins' release on bail thus beclouding the issue, and then to send a very polite note saying there could not be any crisis now that he was out on bail.

## Leaguers Helped Berger Pay Costs of His Chicago Trial

(By United Press)  
Milwaukee, Wis., Dec. 18.—Fred J. Rich, former deputy tax commissioner of North Dakota, today charged that Nonpartisan leaguers of his state put up a part of the cost of Victor L. Berger's defense at his trial in Chicago, on the charge of violating the espionage law. Rich said the information was given him by A. C. Townley and Wm. Lemke, co-leaders of the league.

## Heavy Snow in South Part of State Delays Train Service

(By United Press)  
St. Paul, Dec. 18.—The railroads of the northwest planned to resume practically normal service today but the heavy snow for the last twelve hours threatened disruption. Practically all trains in and out of the twin cities were delayed. Heavy drifts have tied up the trains which resulted in two wrecks yesterday. Two trains on the Chicago & Northwestern road were derailed in the southern part of the state. Fifty-four persons were slightly hurt, but none seriously injured. They were taken to a hospital in Rochester. Reports here today said all would probably recover.

## Release of Murder Suspects Predicted

(By United Press)  
Hammonton, N. J., Dec. 18.—Chas. S. White and Mrs. Edith Jones will be released from the county jail at May's Landing within a week, Edwin White, father of the young man accused of murdering Billy Dansey, declared today.  
Commenting on the statement of the county prosecutor that additional evidence had been unearthed which points away from Chas. White and Mrs. Edith L. Jones, Edwin White said: "It was exactly what we expected. I never had the slightest doubt of my son's innocence."

## Aged Woman Accused of Daughters Murder Returns for Trial

(By United Press)  
Lawton, Mich., Dec. 18.—Mrs. Sarah Tabor came home today to face her accusers. She was accompanied by her son Walter and they are in the custody of officials. The aged woman arrived from California. She will probably go on trial during the January term of court on a charge of murdering her daughter Maud, whose body was found in a trunk in the basement of the Tabor home here. Mrs. Tabor showed no signs of weakening or breaking down during the long trip. She maintains her silence regarding the death of her daughter, and holds to her contention that the woman died from an overdose of chloroform. She professes ignorance of the fact that Maud was about to become a mother or that she was embalmied.

## Two Killed Scores Injured in Hotel Fire

(By United Press)  
Boston, Dec. 18.—Two men were killed and scores injured when the Abbotsford hotel was damaged by fire today. The temperature was five below and women and men who fled to the street in their night clothes suffered from exposure.

## Money Appropriated to Speed Deportation

(By United Press)  
Washington, Dec. 18.—To speed up deportation work the house today passed the senate resolution making immediately available \$600,000 appropriated for the bureau of immigration of the department of labor.

## Shell Explosion Kills 2 Soldiers

### And Fatally Injure Three Others When a Blaze Destroys Arsenal

(By United Press)  
Dover, N. J., Dec. 18.—Two men are dead and three perhaps are fatally injured as a result of an explosion of shrapnel shells in a blaze which destroyed four buildings of the Picatinny Arsenal early today. The loss is estimated at \$1,000,000.  
The dead are Private Oliver McCormack, of Morden, Maine, a marine, who died in the Dover hospital and a soldier named Welkin who died of shrapnel wounds before medical aid could be secured.  
Dover and the surrounding territory was startled by a small explosion at the arsenal. Five minutes later a terrific explosion shook the country side several miles from the arsenal. Plate glass was shattered in the town. For three hours the explosions occurred as the blaze spread to the arsenal and other shells.

## Emma Goldman Granted Request to Withdraw Appeal

(By United Press)  
Washington, Dec. 18.—The last obstacle to deportation of Emma Goldman and Alexander Berkman, anarchist leaders, was removed today as the supreme court granted the request for withdrawal of Goldman's appeal against deportation orders.

## Japan Did Not Agree to Hands-Off in Russia

### On the Contrary She is Steadily Increasing Her Forces in Siberia

(By ED. L. KEEN)  
(United Press Correspondent)  
London, Dec. 18.—Japan was not a party to the "hands off" policy toward Russia agreed upon by the other allies in the recent "unofficial peace conference" here, it was learned today.

On the contrary she is steadily increasing her forces in Siberia. Officials hold that while they fail to understand America's policy of keeping troops in Siberia, they attribute it to a desire to watch Japan.

Although the Japanese ambassador attended the peace conference at which it was agreed to withdraw support from Deniken and Kolchak, and let Russia decide her own fate, at now develops he refused to adhere to the decision, thereby tacitly reserving to Japan the right to decide her own policy toward Russia.

Officials are deeply interested in War Minister Churchill's recent statement in commenting that Japanese forces in Siberia are considerable, and that they are being increased. Persons in close touch with the international situation say they are unable to understand Japan's reason for increasing her forces except for the purpose of securing a foothold in Siberia, while other allies attention is directed elsewhere.

These same persons predict the allies would experience considerable difficulty in evicting Japan should they ever so desire.

The alleged necessity for strengthening the Japanese forces now estimated at 60,000 are fears of the spread of bolshevism into China. Then the very apparent danger to their present forces as a result of Kolchak's retreat.

The resumption of the "unofficial peace conference" after Christmas is expected, when the Adriatic and Turkish questions are expected to be disposed of finally, and also to see the European allies reach a definite decision regarding America's stand on the peace treaty, it was believed today. While it is generally understood the allies agreed last week to accept "reasonable reservations" by the American senate, no line was drawn at that time as to what would constitute reasonable or unreasonable reservations.

## Caucus Called to Settle Leadership

(By United Press)  
Washington, Dec. 18.—A caucus will be held Saturday which is expected to settle the fight for democratic leadership in the senate, was called by Senator Hitchcock, acting leader.

Senators Hitchcock and Underwood of Alabama, are candidates in the fight. The vote which is expected to be taken Saturday is expected to be exceedingly close.

THOMAS FAIRWEATHER

An unsigned note, believed by the police to have been sent by the I. W. W., was received by Thomas Fairweather, mayor of Des Moines, Iowa. His home is now being guarded by the police. The note contained a threat against the mayor's life.

## Railroad Message Not Sent Today

### Expected He Will Say the Railroads Will Not be Returned to Owners for Several Months

(By United Press)  
Washington, Dec. 18.—President Wilson is delaying sending his railroad message to congress. He is waiting to see what progress will be made by the Cummins bill this week, it was learned authoritatively.

The White House statement said the president did not send the message today. However it was understood he has completed it and was ready to dispatch it to the capital at any time such a move becomes necessary.

It was forecast that the message probably would say the railroads will not be turned back to private ownership for several months due to the failure of the peace treaty ratification, and unsettled financial conditions resulting therefrom. Wilson is expected to blame treaty foes for causing such a muddled situation, that he cannot turn the lines back to their owners. He is also expected to make a recommendation for several changes in the present Cummins bill.

### In Lumber Camps Governor Burnquist Said Today if Necessary

(By United Press)  
St. Paul, Dec. 18.—The state military establishment will act to prevent the threatened strike in lumber camps throughout the northern woods, according to Governor Burnquist today. He directed Adj. Gen. Rhinow to return to International Falls and investigate reports that lumberjacks were planning to tie up lumber operations Jan. 1.

J. E. Pineberg, state forester, declared an I. W. W. told him the strike was to be called on New Years day. He also said 80 per cent of the lumberjacks were I. W. W. members. The company of militia taken from St. Cloud to International Falls on report of rioting in connection with the logging railroad strike will be kept there until "the situation clears up," Governor Burnquist said.

## National Guard Service Instead of Universal Military Training

(By United Press)

Washington, Dec. 18.—Proposals by the American Legion that membership in the National Guard be permitted as an alternative to universal military training, is receiving serious consideration in both branches of congress.

Opposition to compulsory training would be removed if every young man would be given a chance to take training in night drills.

## Democratic Senators Formulating Peace Treaty Compromise

### This is the First Time Democrats Have Made an Effort to Effect a Compromise

(By L. C. MARTIN)

(United Press Staff Correspondent)  
Washington, Dec. 18.—Definite proposals for a peace treaty compromise are being formulated by democratic senators for submission to republican mild reservations it was learned today. This is the first time that democrats have taken the lead on securing an agreement of specific terms. In doing so they are exceeding the republicans, who since the treaty failed have declined to put forth any terms.

The treaty has passed from the hands of Lodge to men who mean not to let anything stand in the way of ratification, according to all indications. Lodge and Hitchcock may be called into consultation only when it is certain an agreement has been reached, so that nothing can overturn its adoption.

Democratic proposals now being drawn up will take the form, it was stated, of a new set of reservations. They will be submitted to treaty friends on the republican side only when the support of the most of the democratic senators has been finally pledged. A senator who on hearing them said he would not be surprised if they followed the Lodge reservations rather closely.

**Note Made Public**  
After he had read it Secretary Lansing made the Mexican note public. It is about the same as that carried in previous United Press dispatches.

## In Return the Government is Expected to Abandon the Anti-Trust Suits Against Packers

(By United Press)

Washington, Dec. 18.—An agreement has been reached by Attorney General Palmer and the "Big Five" Chicago packers whereby the latter abandon control of unrelated products, it was learned today.

The arrangement probably will result in the department of justice dropping its anti-trust action against the packers it was stated.

Under the agreement the packers promise to give up control of stock yards and such unrelated products as rice, wheat and breakfast foods. They agreed further to use refrigerator cars only for shipment of meat and meat products, it was understood.

The pending bills to regulate the packing industry are to be pressed in spite of the agreement it was learned. Several changes probably will be made with regard to details. The department of justice was hopeful that the agreement will be effective in reducing the cost of living.

## Ask Palmer if He Made Agreement With Packers

Washington, Dec. 18.—A resolution asking Attorney General Palmer whether he has made an agreement with the big packers to drop further prosecution, providing they abandon control of allied products, will be introduced in congress shortly, it was understood today.

Chicago, Dec. 18.—The "Big Five" Chicago packers are anticipating a government decree of dissolution of lines of business in direct connection, with the meat industries who have been picking up some of those lines during the last year, it was announced.

Although representatives of the companies refused to confirm Washington reports that they had agreed with Attorney General Palmer, a decision had been reached to discontinue these lines, especially poultry, butter, eggs and cheese. They indicated such an announcement might be expected. It is up to Palmer to make the announcement, Swift & Co. stated.

## East Visited by Severe Cold Spell

### While the Temperatures Throughout the West Had Abated Very Much

(By United Press)

New York, Dec. 18.—Thermometers throughout the east from Maine to Washington, D. C., today registered the lowest temperature since the winter of 1917 and 1918. Farther west the intense cold of the last few days was abated according to the United States weather bureau and has been promised relief from the severe cold.

Big Moose, N. Y., apparently was the coldest spot in the United States today with the mercury down to 34 below. This temperature was almost equalled at Tappan Lane and other points in the Adirondacks with 26 below, and at Albany and in central New York temperatures were down to 8 and 10 below.

## Just a Few of the Thousands of Barrels of Kentucky Whiskey on London Docks Awaiting Distribution to English Buyers

The Prince of Wales raised a laugh when he remarked at a recent banquet in London that he was glad to be back in a country where one did not have to pretend to be "dry." If

he acquired a taste for American whiskey during his visit here he will have no trouble pampering it. This photograph, taken at West India docks, shows some of the thousands

of barrels of Kentucky whiskey which have been discharged at the port of London and are waiting distribution to English buyers.

## WOMAN'S REALM

### Royal Welsh Lady Singers

The Royal Welsh Lady Singers sang to a well filled house at the Swedish Lutheran church Tuesday evening.

The program opened with the Welsh Marseillaise—a song so full of martial triumph that it was chosen as the air to be played when the allies marched into Jerusalem, headed by a Welsh company. They sang one verse in Welsh and one in English.

The singers wore the ancient peasant garb and sang the folk songs of the Celts, adding a negro folk song "Kentuck Babe", for good measure. The blending of their voices in this favorite negro melody was very pleasing. Further variety was added by the "Miserere" from "Il Trovatore", and by a very good reading "The Organ Builder".

Almost every number was encored and the response was so ready that it was quite evident that this was the usual experience of The Royal Lady Singers of Wales.

The program closed with the Welsh National Anthem, followed by the American National Anthem, in which the audience was asked to join. If their capable leader, Madam Hughes-Thomas, could train audiences throughout the length and breadth of our land in the singing of "The Star Spangled Banner", she would do this country a real service.

### Royal Neighbors Election

Pine Camp No. 1739 Royal Neighbors of America elected these officers: Oracle—Lizzie Britton. Vice Oracle—Gussie Lyonias. Chancellor—Kate Woelfert. Recorder—Josie Morrison. Receiver—Emma Luken. Marshal—Helen Greenwood. Inside Sentinel—Anna Brose. Outside Sentinel—Elizabeth Walcrus.

Managers—Elizabeth Robinson, Jennie Gibson, Nellie Quinn. Doctors—Reimstead, Beise and Thabes.

The Royal Neighbors expressed their appreciation of the courtesy shown by the Modern Woodmen lodge in entertaining them last Wednesday evening at Elks Hall.

### CONTROL OF SUGAR

**GOING TO WILSON**  
House Amends and Passes McNary Bill Giving President Full Power Over Sales

Washington, Dec. 17—Full responsibility for the nation's sugar supply during the next year soon will rest in the hands of President Wilson. He will have authority, if he elects to exercise it, to take over not only the entire supply in the United States, but buy from Cuba and distribute the entire amount in an equitable way between the household consumers and manufacturers.

### Measure Goes Back to Senate

The House yesterday by an overwhelming majority amended and passed the McNary sugar control bill. The measure now goes back to the Senate, where Senator McNary of Oregon, the author, believes the House amendments will be accepted without great delay. The bill then goes to the President. Although he has been strongly inclined to view that Federal control should end December 31, it is not thought that he will veto the measure, because of the overwhelmingly sentiment in Congress for it.

As amended, the McNary bill authorizes the president to license the sugar industry and to requisition the visible supply. The amendments put in by the House merely continue sections 5 and 10 of the Lever food control law as regards sugar from December 31 this year until the same date next year. Under these two sections the President has absolute control over the sale of sugar if he desires to exercise it. The McNary bill, however, abolishes the zone system established last summer by the sugar equalization board to protect the Louisiana cane sugar growers. This feature is intended to insure sugar to all consumers at the same price.

## NEXT THING TO WORRY ABOUT

With the coal strike announced settled and Prof. Porta's end of the world shown an error, the next thing to worry about in addition to a possibly severe winter, will be the "un-scrumbling" of the railways from national direction to private ownership.

In this world there's always something to think about and weather and railroads will soon be the prevailing topics.

## END OF WORLD

The first "end of the world" still up in the memory of many oldtimers occurred in 1881 and it was argued Mother Shipton's prophecy made 40 years preceding would come true. So possessed did people become over the proposed dissolution of ev-

everything on the earth, that prayer meetings were held in the fields and many converts gained. Mother Shipton had predicted automobiles, flying machines, etc., and there were many who believed everything she had written would come true.

The world, however, persisted in running along regardless of the prophecy, just as it has done regardless of the December 17 juxtaposition of six planets.

## MINNESOTA CLIMATE

In spite of local aspersions frequently heard when the thermometer tips to 28 below, Minnesota's winter climate is unexcelled. ## Want Price of Gold Boosted

RALPH COUCH, (United Press Staff Correspondent.) Washington, Dec. 18.—Gold mine owners and operators now are clamoring to be permitted to boost the price of gold which is valued by law at 20.67 an ounce.

Agitation for increase is intense here. Government offices are clogged with pamphlets and statistics showing the gold mines are "running in the hole". Secretary Glass and Secretary Lane have given the matter some thought and the United States Geological survey has prepared a statement.

## Jenkins Released, No Ill Feeling Is Mexican View

By RALPH TURNER

(United Press Staff Correspondent.) Mexico City, Mex., Dec. 18.—The Mexican government's reply to the second American note demanding the release of Wm. O. Jenkins, American consular agent declared that since Jenkins has been released on bail Mexico presumes the "ill feeling" between the two countries has disappeared, it was learned yesterday.

Jenkins charged with collusion with Mexican bandits to kidnap him, was released on \$500 bail furnished by J. F. Ransen an American without consulting either Jenkins or American officers. Jenkins has since been trying to get the bail revoked and himself again imprisoned.

As soon as he was released on bail the Mexican government believes any motive for ill feeling between the two countries has disappeared and that the Jenkins case has taken a very different form.

## Federal Grand Jury Considering Collusion Charges

Against Miners and Operators to Violate the Lever Act to Limit Production

(By United Press)

Indianapolis, Ind., Dec. 18.—

"Whether we shall be governed by law or by threats and force" was the issue before the federal grand jury which began hearings yesterday upon the investigation of charges of

collusion between miners and operators.

Judge Anderson put the information in the hands of jurors at 11 a. m. yesterday. The jurors must determine if the miners and operators have worked together to violate the Lever act and anti-trust law.

"Let this conclusion," he said "be a full answer to a question which has been uppermost in the minds of our citizens for the past two weeks; that is whether the government of the United States or a group of men shall be ruling this country, and whether we shall have government by law or by being threatened and forced."

The grand jury will also investigate charges that coal miners violated the government anti-strike injunction by failing to return to work after the injunction was issued.

## BACK-ACHE, Pain In Side, Kidneys

St. Paul, Minn.—I was troubled with

disordered kidneys for about two years—

my back ached terribly, side pained and I had frequent excretions. I let it run on until I read of Dr. Pierce's Anuric (anti-uric acid). I took the Anuric but a short time when I was feeling fine. My

side and back stopped paining, and kidneys acted normally. I could sleep well at night which I couldn't do before. I certainly advise any one suffering from kidney disorders to use the Anuric Tablets."—MRS. LOUISE GIBILLAN, 289 State St.

The kidneys and bladder suffer from the wear and tear and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the uric salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anuric" (anti-uric acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anuric" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

## A Bit Late.

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## TAXES WILL BE HIGHER IN COUNTY

State Tax Increased from 3.50 Mills to 8.10 Mills Account Soldiers Bonus Law, Etc.

### COUNTY LEVY IS HIGHER TOO

Brainerd Schools Raised from 25.45 to 27.90 Mills, City Rate is a Little Lower

Taxes will be higher in Crow Wing county as well as other counties in central Minnesota. Several causes are contributing factors.

The state tax has increased from 3.50 mills to 8.10 mills, caused by the soldiers' bonus law, large appropriations for state aid for schools, wolf bounty, etc.

The county tax increased from 11 mills levied in 1918 to 16.90 levied this year. The raise occurs because the county is to pay \$30,000 bonded indebtedness due and the road and bridge fund measures are larger.

Brainerd schools increased from 25.45 mills to 27.90 mills. The increase is accredited to the need for more funds for general purposes, higher salaries are paid, the West Brainerd school is to be completed.

In the city there has been a decrease from 26.05 mills levied in 1918 to 24.90 mills levied this year. The 90-100 mill represents interest on bonds sold to the state and that levy was certified to by the state auditor.

The total tax state, county, school and city is 77.80 mills as levied this year and payable in 1920.

#### Comparison

	1918 Levy	1919 Levy
State	3.50	8.10
County	11.00	16.90
Brainerd Schools	25.45	27.90
City	26.05	24.90
	66.00	77.80

#### MAIL PARCELS EARLY

Mails Congested at This Time of Year, and Christmas Packages Should be Sent Early

"Mails are congested at this time of the year," said Postmaster H. P. Dunn, "and those who contemplate mailing packages to other points should get the parcels into the mails as soon as possible to insure delivery before Christmas."

"With congestion comes the piling up of parcels at terminals and several days may elapse before the congestion can be cleared, thus eliminating a before Christmas delivery. For instance, packages destined for St. Paul or Minneapolis may not be delivered on time in those cities if mailed a day or two before Christmas. The congestion at these terminals just before the holidays is sure to be great and parcels do not reach their destinations until they have been in storage there for some time. The safe plan is to mail now for Christmas."

## TEACHERS' SIDE IN CONTROVERSY

Take Exception to Resolutions Adopted by the American Legion on Neglect in Schools

### OF PATRIOTIC OBSERVANCES

Brainerd Teachers Association Claims the Investigation Made by the Legion Was Superficial

The Brainerd Teachers' Association has taken exception to the resolutions of the American Legion of Brainerd regarding points in patriotism as alleged neglected in Brainerd public schools. That the case may be studied clearly from all angles, the resolutions of the local Legion are given in full as follows:

#### Legion Resolutions.

1. That the principals of the Lincoln, Whittier, Lowell, Harrison and High Schools and several teachers of such schools have been interviewed, and that from these interviews we find that patriotic exercises are held in most cases daily in all of such schools except the high school.

2. That in the high school there has been no effort, as far as we can discover, to comply with the law.

3. That in no case did we find a principal or teacher who was aware of the existence of the law requiring the teaching of patriotism in the schools.

4. That on at least three of the public school buildings the flag has been allowed to remain exposed to the weather, both day and night, rain or shine, winter and summer, until it has become so faded and weather beaten that it ceased to be a flag. That at the present time this condition exists at the Washington building. That the reason assigned for the failure to lower the flag at night, is that proper flag staffs and means for raising and lowering it have not been provided.

5. That all school buildings in the city are not provided with suitable flags.

AND WE RECOMMEND

1. That the Sydney Carl Hanson Post of the American Legion commend the efforts on the part of the teachers and principals of the Whittier, Lowell, Lincoln and Harrison schools for their efforts along the lines just mentioned.

2. That we recommend that the attention of the school authorities be called to the provisions of Chapters 108, and 313 of the Session Laws of Minnesota for 1917, governing the display of the flag and teaching of patriotism.

3. That we request that the courtesies due the National Emblem, be observed.

4. That we request that the removal of what was a flag be removed from the Washington building immediately and a suitable flag provided.

#### Teachers Statement in Reply

In response to the statements in last Saturday's Dispatch, the Brainerd Association of Teachers wish to present the facts in the case. We wish to express our thorough appreciation of the stand taken by the American Legion here and elsewhere on loyalty to our country, but we much regret that the committee appointed by them should have made a report based on such light knowledge of the actual conditions in the schools of Brainerd.

The statement was made that all the principals had been consulted. Such was not the case. The investigation of the committee was decidedly superficial. We feel that loyalty to our country includes loyalty to our schools and not an attitude of carping criticism. In the Washington school, there was only one minute's conference between the committee and the principal, where the question was asked whether we were having formal weekly patriotic exercises, but no inquiry was made as to other methods of teaching patriotism. We feel that this is manifestly unfair.

During the war, the Brainerd schools did valiant work in the Red Cross. They knit many articles, made countless surgical dressings, booklets for the hospitals, refugee and Red Cross garments, and the Normal Training and Mechanical Drawing departments were ready at all times to answer the calls made upon them. Every student was enlisted, moreover, every student in the high school studied a special book "Democracy Today." If the committee had taken care to ask any of the teachers here for the past three years, they would have been told of many patriotic programs in the high school and the grades. Every history and English class has taught and is teaching patriotism. Flag Day, Armistice Day, the birthdays of our great presidents, Roosevelt Day, and Memorial Day have always been observed with patriotic exercises. To this, any student of the schools can testify.

The statement was also made that none of the teachers knew about the law of 1917 in regard to the teaching of patriotism in the schools. This statement was also based upon insufficient evidence. We have devoted much more than the paltry half hour a week, although not in set programs. Last year we started a series of monthly patriotic lessons under state guidance, but by advice of the state authorities, the system was dropped here and elsewhere by the state department itself, which instructed us that they considered it detrimental rather than beneficial to teach patriotism as a special subject; that cramming patriotism down the student's throats was far from desirable. We feel that the criticism made was entirely destructive and not at all constructive.

We much regret the necessity for this statement, but feel that it is our duty to put ourselves in the right light before the public.

THE BRAINERD ASSOCIATION OF TEACHERS.

IN every class of merchandise there is a standard that is always spoken of—compared to—and judged by. The policy of this store in every case is to secure just that line of standard merchandise for its customers.

Victrola X \$110.00

IN talking machines there is one I make that stands pre-eminent over all others—the Victrola. Its popularity is unquestioned; the demand for it is always far beyond the supply.

Victrola XI \$130.00

WHEN the vast Victor factory went to war (devoting 90% of its facilities to the making of supplies for the war department) its output of Victrolas was necessarily curtailed. The opportunity was offered us, just the same as it was offered to other Department Stores, to fill our customers' wants with other makes of talking machines.

This we did not care to do.

A CORDIAL invitation is extended you to visit our Department and avail yourself of the opportunity to realize the quality of our Victrola Service.

Victrolas H. F. Michael Co. Exclusively

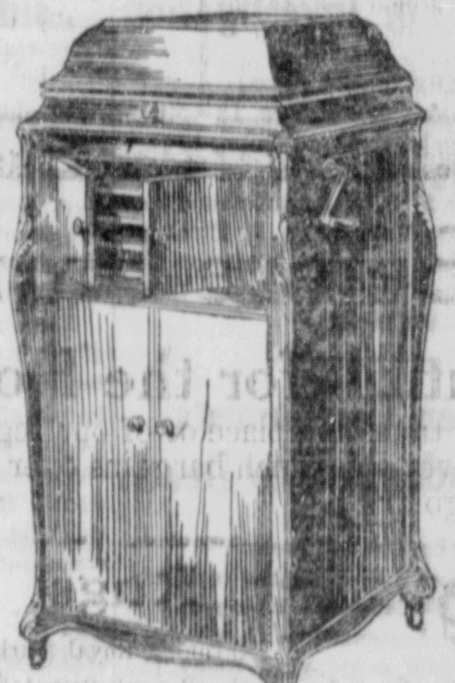

Victrola XII \$150.00

WE knew Victrolas and Victrola records. We knew that each and every statement of superiority made by the Victor Company as to tone, durability, price and value were proven true time and again. We had specialized in Victrolas for years and we knew that our customers would not be completely satisfied with their purchase unless it were a Victrola.

FOR that reason we declined the offers of other manufacturers and prepared to wait until the Victor Company was able to supply Victrolas in sufficient quantities to satisfy the demands of our customers.

OF course every one realizes that the demand for Victrolas is enormous. We therefore urge those who contemplate purchasing a Victrola to make their selection at the earliest possible time.

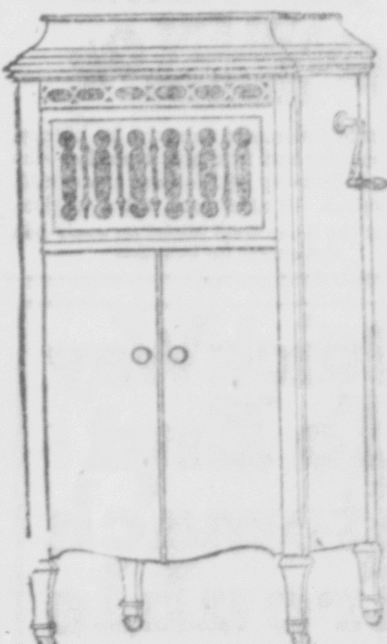

Victrola XIII \$250.00

## PRINCE ALBERT

the national joy smoke

ROLLING your own cigarettes with Prince Albert is just about as joyous a sideline as you ever carried around in your grip! For, take it at any angle, you never got such quality, flavor, fragrance and coolness in a makin's cigarette in your life as every "P. A. home-made" will present you!

Prince Albert puts new smokenotions under your bonnet! It's so delightful rolled into a cigarette—and, so easy to roll! And, you just take to it like you been doing it since away back! You see, P. A. is crimp cut and a cinch to handle! It stays put—and you don't lose a lot when you start to hug the paper around the tobacco!

You'll like Prince Albert in a jimmy pipe as much as you do in a home-rolled cigarette, too! Bite and parch are cut out by our exclusive patented process. You know P. A. is the tobacco that has led three men to smoke pipes where one was smoked before. Yes sir, Prince Albert blazed the way. And, me-o-my, what a wad of smokesport will ripple your way every time you fill up!

Awaiting your say so, you'll find every red head, tidy red tin, handsome pound and half pound tin humidor—and—had every practical pound crystal glass humidor with sponge moistener, top that keeps Prince Albert in such perfect condition!

## MUNICIPAL XMAS TREE IN CROSBY

Mothers Club Preparing for Big Celebration to be Held at the Armory in Crosby

## CHORUS WILL SING THAT DAY

Council Donated \$125 for the Affair—Village Puts in 4 Inch Water Meter

Crosby, Minn., Dec. 14—The Mothers' club is preparing for the municipal Christmas tree which will be held in the Armory. Madam Pearl is training a number of voices for the occasion. It is planned to give each child a bag of candy with an orange. The council has donated \$125 toward the affair.

The village this week installed a four-inch water main meter at intersection of the north county road and Seneca avenue east, where the Croft line connects with the village mains.

Ole Windseth, who underwent an operation for an obstruction of the bowels at the Miners' hospital, is well on the way of recovery, and is expected he will be home again in two weeks.

The Degree of Honor, Victory lodge, No. 249, elected officers as follows, Tuesday night: Anna Severance, chief of honor; Mrs. M. C. Sheets of Ironton, past chief of honor; Mrs. Harry Leigh, lady of honor; Mrs. Milnor, chief of ceremonies; Mrs. Julia Johnson, recorder; Miss Falconer, treasurer; Mrs. Chris Paulson, usher; Mrs. P. M. Johnson, assistant usher; Mrs. L. Blake, pianist; Mrs. E. Keitel, outer guard; Mrs. E. L. Toomey, inner guard.

Miss Bessie Hart, who made her home here with her sister, Mrs. B. B. Gaylord, for so many years, was married recently at Warren, Ohio, to Henry Cooper and will live in that city.

John Hill left Saturday for Fort Worth, Texas, to spend a portion of the winter and later go to California. Mrs. Hill and daughter, Mrs. P. D. Kreitzer, will soon leave for Florida. Dr. B. A. Smith returned Tuesday from Minneapolis where he attended a medical convention.

Eugene Woods, barber went to Rochester this week to receive treatment for cancer of the stomach.

The Crow Wing County Independent moved its plant here from Deerwood this week into the Hyde block.

W. C. Deering, who has been manager of the Dower Lumber company yards here since they were opened in 1910 has become a member of the John Dower Lumber company, and will leave with his family in January to take charge of the company's business in Yakama, Wash. Both Mr. and Mrs. Deering have been prominent in social affairs. Mr. Deering was village president in 1914 and was county chairman of two of the Liberty Bond campaigns, and is one of the village's boosters. He is secretary of the library board and Mrs. Deering is librarian.

A chimney fire in the Empress block cased out the fire department Wednesday morning.

The village council Tuesday evening ordered the street commissioner to clear off a suitable space on the lake for a rink. Hugo Brueske will furnish a warming room and the rink will be free to all.

## BOWLING NOTES

The Elks bowling team will play the Moose bowling team at the Cook alleys on Friday night. Both teams have a strong line-up.

Different prizes are given for high scores and there are plenty of bowlers "hitting the maple" for them. The Boiler-maker Helpers will organize a team in a few days.

It's a good game if you don't weaken.

## BRAINERD'S ODDEST STORIES OF THE DAY

One would hardly expect a St. Paul man residing near the seat of the packing industry, sending to Brainerd for hams, but that is the case of a friend of Theodore H. Schaefer of the Model Meat Market. Every year he sends his friend a number of Brainerd home-cured hams and the St. Paul man says they are unexcelled for flavor and build.

## Legion Executive Committee will Consider Brom's Release

(By United Press)  
Washington, Dec. 18—The American Legion protest for the release of Albert Broms, St. Paul radical from Fort Leavenworth prison, by a clerical error, will be taken up at a meeting of the Legion executive committee at Indianapolis Saturday.

Secretary of War Baker in a letter of reply to the president of the Legion said the case was now in the hands of civil authorities and so far as the war department is concerned the release of Broms is a closed incident. Baker said Broms could not be held unless he had committed some unlawful act since his release.

## BRAINERD BOY STAR

Ben Zakariasen Leads Aggie Basket Ball Squad to Victory

(Minnesota Farm Review)

In their first big game this season the school of agriculture basketball team Saturday afternoon defeated the Cleveland Independents by a score of 23 to 13. Before the game the chance of winning seemed hopeless to the school men, for the Clevelandians had a heavier team, and the members were experienced players, having claimed the independent championship of the twin cities in 1916.

Lack of team work due to insufficient practice lost the game for the Independents, and well developed team work won it for the Aggies.

Ben Zakariasen of Brainerd was the individual star of the game. He made seven baskets in succession for the Aggies, thus piling up half of their score of 23.

As a preliminary game the second team of the school played the third team, the former winning by a large margin.

The line-up for the game was as follows:  
Agiess—Zakariasen, rf; Hanson, lf; Evans, c; Cress, rg; Headbloom, lg.

Clevelandians—Kinneberg, rf; Larson, lf; Falconer, c; Vilzisker, rg; Smoke, lg.

Of the goals from field Zakariasen made seven, Hanson two. Pennington (substituting for Headbloom) two, Street one. Of free throws Hansons made two.

The first big game next term will be with Stout at Menomonie on Jan. 16th.

## That's Strange.

**Fog as a Creator of Illusion.**  
We do actually perceive different distances with the eye, but judge them from various indications. If you see a person in a fog, for instance, he seems to be much bigger than usual. You judge him to be farther away than he really is, and consequently he appears uncommonly large.

**Hawaiian Islands.**  
In the Hawaiian group there are twelve main islands, all classed as United States territory. The total area is 6,449 square miles. The inhabited islands number eight—Hawaii, Maui, Kahoolawe, Lanai, Molokai, Oahu, Maui and Niihau. In addition there are numerous small islands in the chain which are valuable for their guano deposits and shark fishing grounds, but which are not inhabited.

## Changing Japanese Conditions.

Abe Kobel, a rich Yokohama merchant, bequeathed 1,000,000 yen to be used for the public welfare of Kanagawa prefecture, placing the matter entirely in the hands of the governor, Itoyone. This is by no means a solitary case of its kind, as it may be remembered that an Osaka merchant, not long ago, donated 1,000,000 yen to construct a public meeting house, which is now complete and in use. However, it shows a change in the psychology of the people, with whom the family has been the unity of society, and family property and possessions have been kept intact from one generation to the next, even by the expedient of adopting other people's children to keep up the family lineage whenever no heir is born. This change is welcome for it indicates a contribution to the betterment of the social welfare of Nippon.

## Given New Lease of Life.

St. Dunstan's, the school for blinded sailors and soldiers in England, has accomplished its greatest wonder. Sergt. Alan Nichols, who lost his sight and both hands in the war, has been taught to type. A specially constructed machine for the blind and a pair of aluminum hands, each finger being movable, have enabled him to pass a two hours' test. Only two corrections were necessary.

## Eight Pictures on a Film.

As many as eight photographs may be taken on the same film by the aid of a special camera-back invented recently. When the film is loaded there are two masks in front of it, each of which may be adjusted so that certain portions of the film were exposed. The photograph is then taken in the ordinary way, but that part of the film which was covered by the mask remains unexposed, and another photograph may be taken, without spoiling the one already taken. One, two, four or eight photographs may thus be taken on the same film.

## Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.
